# CAMPUS CRUSADE FOR CHRIST

*Building Spiritual Movements Everywhere*

## ERIN KEYSER at UCONN

Dear friends,

What do you imagine when you think of college students on spring break? Do you picture thousands of students gathered on the sunny sands of Panama City Beach, Florida? Parties? Night clubs? Beer cans strewn about? This is how many students choose to spend their free week, trying to find fun and satisfaction, but often-times only receiving guilt and regret. However, this can be an awesome chance for God to do big things in their lives.

### Spring Break, Big Break

One of my favorite and most life-changing experiences in college was going on the Campus Crusade conference, **Big Break**. Each year, Big Break welcomes students from all over the nation to come to Florida during their spring break to grow in their walk with God and to reach out to the thousands of other students vacationing here, one of the top spring break destinations. These students get to experience great speakers and be challenged to step out in faith and talk with students on the beach. Spring breakers tend to be surprisingly open to spiritual conversation and it's a great opportunity to get them thinking about life's greater purpose. One Big Break student said:

Thousands of college students flood into Panama City Beach during the month of March

***My Trip to Panama City Beach was incredible! As a person who is new to sharing my faith, PCB really helped me change my perspective on evangelism. God worked through me over break to change people's lives and... has shown me how to live my life more Christ-like and how I can be used for great things! I am counting the days until next break, when I can do it again!***

Please keep praying for me as I continue raising my initial support. I'm looking forward to being ready to work with students full-time. Thank you so much for your faithful support!

All my love,

*Erin*

### Prayer Requests

**UConn students and staff:** that they would find their peace and comfort in Christ during this spring semester

**My support raising process:** that God would complete my support team as soon as possible

**Me:** that I would really trust God and grow during this time before I get to work with students directly
